CargoAi

WHO THEY ARE

➤ WHO THEY ARE

Matthieu Petot, CEO

15+ years of experience in Logistics, Airfreight and Innovation. Matthieu started his career at DB Schenker Australia before moving to Air France - KLM Cargo and Martinair for six years, where he held several positions, most recently Africa Area Manager (Supply & Demand). He subsequently moved to Dyson, where he spent five years, including as Global Head of Business Excellence (after other roles at the company). In 2017, he founded Lending2b.com and InCorperate before founding CargoAi in 2019.

Mathilde de Rocquigny, CCO

18+ years' experience in Airports & Airlines management, Mathilde began her career in 2000 at AIR FRANCE KLM where she worked 15 years, holding several positions to drive sales achievements & business development primarily for AIR FRANCE CARGO. She also worked for CITYJET in Ireland as Project Manager leading transformation of the airline. Mathilde joined VINCI Airports Japan as Deputy General Manager for Airline Sales, Marketing and Cargo in Kansai Airports. Specialized in IT solutions implementation and sales performance, she founded THE KALI CO. before joining CargoAi as Chief Commercial Officer in October 2020.

➤ WHO THEY ARE

Elena Volkova, CPO

10+ years in software development and business layers for major B2B industries. Elena started her career at Inforbix in 2011 as Social Media Manager before moving to Autodesk, where she was a Project Manager for three years. She then moved to Singapore to work as Senior Project Manager for Applica Pte Ltd, before working at FCS Computer Systems as Product Manager, then Head of Product and Design. She was hired by CargoAi as CPO in August 2020.

François-Xavier Gsell, CTO

8+ years of tech, IT and solutions architecture. After completing his Master of Science (MSc) degree, which focused on Machine Learning, at the University of Kent in 2013, FX began working in a range of industries, including as a Business IT Applications Engineer (EMAS), Senior Software Engineer (Art of Click), Solutions Architect (Amazon) and Senior Cloud Solution Architect (Microsoft). In July 2020, he became CTO of CargoAi.
